IT 3000
HEALTHCARE IT TECHNICIAN

PROGRAM DETAILS

This program provides comprehensive training for students who wish to prepare for entry into a career in healthcare, with a focus on Information Technology (IT). The Healthcare IT (HIT) field is booming with development in technology and migration from paper records to electronic records. It is one of the fastest growing fields in IT today, with new jobs and opportunity created constantly.

Students receive Healthcare IT training through a comprehensive 24-week program, with emphasis on Regulatory Requirements, Electronic Health Records (EHR), Organizational Behavior, IT Operations, Medical Business Operations, Networking and Security. The core training within this program allows students to choose a path for certification.

The first path has a Healthcare focus which prepares students for certification in Electronic Health Records (CEHRS) and CompTIA's A+, while gaining exposure to Medical Office Procedures and Administration and Network +.

The second path has a Technical focus which prepares students for certification in CompTIA's A+ and CompTIA's Network+, while gaining exposure to Medical Office Procedures and Administration and Electronic Health Records. Students may choose the exam path before they begin their program.

AT THE END OF THIS PROGRAM, YOU WILL BE ABLE TO:

- Manage and troubleshoot a basic network infrastructure, using common ports and networking protocols

- Install and manage wired and wireless networks, adhering to standards and using modern testing tools

- Assess security risks and identify potential threats to hardware, software and physical location

- Conduct risk mitigation for systems, hardware and peripherals

- Implement disaster recovery procedures and security contingency plans
